

DISCOVERER'S ROOM (Ages up to 1 ½)

This month the Discoverer children have been focusing on developing their gross motor skills. Reshma has been working hard with the children as they strengthen muscles and learn new skills. Playing with balls big and small has been a particular favourite with the children this month, as they throw them, kick them, post them and hide them!

EXPLORER'S ROOM (Ages 1 ½ to 3)

The Explorer children are so excited to have Miss Dionne join their room. Together with the educators, the Explorer children have been working hard on learning their colours! They have experienced SO many different activities this month, all helping them learn their colours in a fun and engaging way.

INVENTOR'S ROOM (Ages 3 to 5)

The Inventor children have really lived up to their namesake this month, as they delved into Science Week. The children were able to become mini scientists, and engage in hypotheses, perform experiments, and just generally explore the amazing world of Science!

UPCOMING EVENTS

1st September

FATHER'S DAY

We are working hard on some gifts for our dads, or the special person in our lives.

3rd September

EDUCATOR APPRECIATION DAY

We are celebrating our amazing educators, and recognising the hard work they do each day.

17th September

PIRATE DAY

Dress up like a pirate as we raise awareness for childhood cancer.

MONTHLY RECAP

- Science week was so much fun, testing hypotheses and performing experiments!
- Book Week so many different characters, and lots and lots of books read!

STAFF HIGHLIGHT

Sonam is one of our wonderful Toddler educators. Sonam has been working for SNS for over two years. We love the calm energy he brings to what could otherwise be a wild age group.

OUR TEAM

During our monthly meeting, we had a focus on safe sleep to make sure we are up to date with the latest requirements. We also played a great game of This or That, which ended it lots of laughs!

FROM KARL & ANDREW

We are working in collaboration with Gemma and the team to update our website and create a new marketing strategy. We want to assure our families that we are committed to SNS Bentley and are working to grow our numbers again.

The time has come to begin planting our gardens, ready for spring! We would love your input about what our garden beds should hold! Come and speak to Gemma if you have a green thumb!
